

SwiftPro 25W

25W QI2.2 WIRELESS CHARGER | COMMERCIAL-GRADE

STAY  **CHARGED**

Premium surface-mounted wireless charging with drop-in installation that integrates seamlessly into desks, tables, and joinery with minimal disruption.

25W Wireless Charger

Qi2.2 MPP

Drop-In Install

15mm Hole

Upgrade your space with SwiftPro's next-generation wireless charging. Featuring Qi 2.2 MPP technology with up to 25W output power, SwiftPro charges devices significantly faster than standard wireless chargers. The innovative drop-in design with screw-nut fastening makes installation quick and tool-minimal—simply drill a 15mm hole, insert the charger, and secure from below.

KEY FEATURES:

- 25W Fast Wireless Charging with Qi 2.2 MPP technology delivers maximum charging speed for all compatible smartphones including iPhone and Samsung devices.
- Simple Drop-In Installation with 15mm hole and screw-nut fastening—no screws or complex mounting required. Install in minutes with minimal tools.
- Slim-line, spill-resistant face designed for high-traffic bars, counters, office-spaces and partitions with easy wipe-clean maintenance.
- Versatile Surface Compatibility supports material thicknesses from 10mm to 50mm, fitting everything from thin laminate to solid timber countertops.
- Comprehensive Safety Protection including over-temperature, over-voltage, over-current, short-circuit, reverse polarity, ESD, and Foreign Object Detection (FOD).
- Intelligent LED Indicator provides clear charging status—solid green on standby, off while charging, flashing green when fault or foreign object detected.
